

The  
**ICONIC MEETINGS**  
.....Meet Influential People.....

# World Conference on Infection Diseases

**Tokyo, Japan | November 19-21, 2026**

## **Day 1: November 19, 2026 – Opening Ceremony & Keynote Sessions**

**08:00 – 09:00** | Registration & Welcome Coffee

**09:00 – 09:30** | Opening Remarks & Inauguration Ceremony

**09:30 – 10:30** | **Keynote Lecture I**

**Theme:** Global Trends in Emerging Infectious Diseases

**10:30 – 11:00** | Networking Break

**11:00 – 12:30** | **Session I: Viral Infections & Global Surveillance**

- Case studies: COVID-19, Ebola, Influenza
- AI-driven data modeling for outbreak prediction
- Real-time genomic surveillance systems

**12:30 – 13:30** | Lunch Break

**13:30 – 15:00** | **Session II: Antimicrobial Resistance & Superbugs**

- Global AMR policies and strategic frameworks
- Advances in antibiotic alternatives and phage therapy
- Stewardship programs in low- and middle-income countries

**15:00 – 15:30** | Coffee Break & Poster Viewing

**15:30 – 17:00** | **Panel Discussion**

**Theme:** Strengthening Global Health Systems in the Post-Pandemic Era

---

## **Day 2: November 20, 2026 – Thematic Sessions & Interactive Workshops**

**09:00 – 10:00** | **Keynote Lecture II**

**Theme:** Vaccines & Immunotherapy in Infectious Diseases

**10:00 – 11:30** | **Session III: Zoonotic & Vector-Borne Diseases**

- Regional updates: Dengue, Zika, Malaria

- Climate change and vector expansion
- One Health integrated response strategies

**11:30 – 12:30 | Workshop I**

**Topic:** Infectious Disease Modeling & Predictive Analytics Tools

**12:30 – 13:30 | Lunch Break**

**13:30 – 15:00 | Session IV: Pediatric & Geriatric Infectious Diseases**

- Pediatric vaccine responses and immunization strategies
- Managing infections in aging and immunocompromised populations

**15:00 – 16:30 | Session V: Diagnostics & Point-of-Care Innovations**

- Rapid molecular diagnostics
- CRISPR-based detection platforms
- Digital health integration in diagnostics

**16:30 – 17:30 | Poster Presentations & Young Investigator Forum**

---

**Day 3: November 21, 2026 – Global Collaboration & Future Directions**

**09:00 – 10:00 | Keynote Lecture III**

**Theme:** Preparing for the Next Pandemic – Lessons Learned & Future Strategies

**10:00 – 11:30 | Session VI: Infection Prevention & Hospital Management**

- Infection controls best practices
- Digital surveillance tools in healthcare settings
- Antimicrobial stewardship implementation

**11:30 – 12:30 | Workshop II**

**Topic:** Grant Writing & Accessing Global Research Funding

**12:30 – 13:30 | Lunch Break**

**13:30 – 15:00 | Session VII: Innovations in Infectious Disease Therapeutics**

- Novel antivirals and monoclonal antibodies
- mRNA-based therapeutics
- Clinical trial advancements and translational research

**15:00 – 16:00 | Closing Remarks & Award Ceremony**

**16:00 onwards | Certificate Distribution & Networking Tea**

---

## **Latest Topics for Engaging Talks**

To encourage high-impact discussions and forward-thinking research presentations, the conference will also highlight:

- Pandemic preparedness and global response equity
- Climate change and emerging pathogens
- Artificial intelligence in infectious disease forecasting
- Next-generation vaccine platforms (mRNA, DNA, vector-based)
- Microbiome research and host-pathogen interactions
- Digital epidemiology and big data analytics
- Antimicrobial peptide research
- Global vaccine hesitancy and public health communication
- Biosecurity and biosurveillance strategies
- Precision medicine in infectious diseases

---

**Note:** The program schedule is tentative and subject to modification. Participants are advised to check for updates closer to the conference date.
